

GLOSSARY

Architecture: The art and science of designing and building structures, communities, or open areas, in keeping with aesthetic and functional criteria.

Building: A more or less enclosed and permanent structure for housing, commerce, industry, etc., distinguished from mobile structures and those not intended for occupancy.

The Indus Valley Civilisation (IVC) was a Bronze Age civilisation mainly in northwest South Asia, extending from what today is northeast Afghanistan to Pakistan and northwest India.

Site: The location of a significant event, a prehistoric or historic occupation or activity, or a building or structure, whether standing, ruined or vanished, where the location itself possesses historic, cultural or archaeological value regardless of the value of the existing structure.
