

## Glossary

**Finnish Architecture:** Finnish architecture since the days of Alvar Aalto, regarded as the most influential architect of modern Finland. The minimalistic and aesthetic lines distinctive in contemporary Finnish architecture are ubiquitous in the country's public and residential buildings.

**Disgruntlement:** Disgruntled sounds like what it is — dissatisfied, grunting and grumbling. You could become a disgruntled employee if your boss swipes all your best ideas without giving you credit (or a raise). Disgruntled actually comes from gruntle, an old verb meaning, not so surprisingly, "to grunt."

**Capitalism:** An economic and political system in which a country's trade and industry are controlled by private owners for profit, rather than by the state.
