### **3. Explain the advantages of modular furniture?**

Modular furniture is made up of standard units that can be put together in numerous ways. Modularity make it possible to reconfigure groups as needs change or to suit a move to new location.

### **4. Need for furniture planning?**

With the exception of certain monumental spaces, such as lobbies, circulation spaces, and ceremonial interiors, almost all interiors require furniture. We use chairs, tables, and desks for working, chairs and tables for dining, chairs and sofas for conversation and watching television.
