

FAQs

Q1. What was in the beginning of professional preparation in physical education?

Ans In the beginning, the guiding principle was learn to execute movements to be able to teach them in the next phase, the guiding principle changed to "learn to teach" in which the goal of the professional preparation was to form a competent teacher.

Q2. Write any one of recent trends in modern professional development.

Ans Backward Design Planning:- Current models of professional development are actionable. Charged with a clearly designed, intentional purpose, many educators are looking at the end goal that connects to a larger vision and working backwards to create professional development plans. Once purpose is defined, educators can strategically match learning opportunities to objectives and create action steps to achieving knowledge on topics

Q3. Explain any one of important steps to be taken for modernisation of society and education.

Ans Talking Education- Educators believe using talking or videos to review lessons and teach concepts helps students learn and retain more. Between Ted Ed and Teacher Tube, education talks a lot about everything. Students love movement, television and film so utilizing these snippets of information transforms the meaning of learning especially for many students who are strapped for time.

Q4. Why Modernization of Indian society is needed?

Ans Modernization will help the people not only to restrict their loyalty to a particular caste, class, community or religion but to explain it to the whole humanity even by crossing the national boundaries. Contrary to this, traditionalism will shatter the nation into pieces.

Q5. Write any one role of modernization of education in society in professional preparation.

Ans Teacher should study literature on modernization so that they might properly appreciate the dimensions of the problem and project the same to their students.

Q6. What should be involved in moral education?

Ans Moral education involves many religions and many insights into the way humans interact with one another. How we manage our way through difficulties is just as important as how we measure through technological advances, at least to our ancestors and their views of right and wrong.

Q7. How sustained inquiry allows for educators to approach questions in their worlds?

Ans Sustained inquiry allows for educators to approach questions in their worlds through an iterative process of design thinking with trial, evaluation, redefining, and reimagining.

Q8. What should be the focus on providing a quality education in Finland?

Ans Instead of focusing on meeting standards and racing to the top, Finland focuses on providing a quality education to everyone. Contrary to many of the other views in this list, Finland does not believe in competition or even giving grades until fifth grade.

Q9. What is Backward Design Planning?

Ans Backward design planning is a current model of professional development which is actionable. Charged with a clearly designed, intentional purpose, many educators are looking at the end goal that connects to a larger vision and working backwards to create professional development plans.

Q10. What will Modernization help the people in Indian society?

Ans Modernization will help the people not only to restrict their loyalty to a particular caste, class, community or religion but to explain it to the whole humanity even by crossing the national boundaries. Contrary to this, traditionalism will shatter the nation into pieces.
