

Glossary

Social Sciences: - Social science is a major category of academic disciplines, concerned with society and the relationships among individuals within a society.

Science: - Science is a systematic enterprise that builds and organizes knowledge in the form of testable explanations and predictions about the universe.

Professor:- Professor (commonly abbreviated as Prof.) is an academic rank at universities and other post-secondary education and research institutions in most countries.

Enterprises:- An organization created for business ventures; "a growing enterprise must have a bold leader"

Epistemology:- Epistemology from Greek *epistēmē*, meaning 'knowledge', and *logos*, meaning 'logical discourse') is the branch of philosophy concerned with the theory of knowledge.

Administer:- The word 'administer' is derived from the Latin word *administere*, which means to care for or to look after people, to manage affairs.

Philosopher:- The term "philosopher" comes from the Ancient Greek (*philosophos*) meaning "lover of wisdom". A philosopher is someone who practices philosophy, which involves rational inquiry into areas that are outside of either theology or science.

Sports:- Sport is generally recognised as system of activities which are based in physical athleticism or physical dexterity, with the largest major competitions such as the Olympic Games admitting only sports meeting this definition.

Budget:- A budget is a quantitative expression of a financial plan for a defined period of time.

Evaluation:-Evaluation is a systematic determination of a subject's merit, worth and significance, using criteria governed by a set of standards.
