

## Summary

In this chapter, we can summarize that the department of physical education or in charge sports stores is interested to get the maximum service of the equipment, he must be types of equipment on hand. It is a very systematic and important task which requires good amount of patience, skill and attention to carry out the job effectively and efficiently. Except for permanently fixed items such as goal posts, volleyball, lawn tennis poles etc., specific procedures are needed to store all the other kinds of equipment in spacious stores furnished with racks, hooks and hangers etc. There should be at least two big stores –one for the storage of new brand new equipment and other for the equipment under daily use.
