

SUMMARY

The superior judge must be certified by the federation international gymnastics (FIG) and must be able to demonstrate to the FIG, and on the basis of good test result, good knowledge as well as good abilities and indisputable objectivity in judging.

Stealing of judges in competitions between nations and other international competitions is based on the recommendation of the FIG technical regulation. According to these articles the superior judge may not represent a federation involved in the competition. The number of neutral judges is based on the argument made between the participating federations.
