Brady's Wall Volleys Skill Test

SUMMARY

Brady's constructed the Wall volley Skill test in 1962 on 137 college man to measure the general Volleyball playing ability. To measure the ability a target on the wall marked with in specific measurement. For these test we need Volleyball, Standard Wall, Measuring Tape, Marking Chalk, Stop Watch and Pair of staircase. The performers are asked to make maximum number of Volleys on the target in one minute. And number of Legal Volleys in one minute will be countered as a score. Brady's also modified the test for women and young boys with the change in measurement of target and time of scoring.
