

## **PHYSICAL EDUCATION**

Subject : Physical Education  
Semester : 4<sup>th</sup>  
Paper No. and Title : (401) Test, Measurement and Evaluation in Physical Education

### **Unit 2: Frequency Table and its Construction**

#### **Summary:**

Frequency and Frequency table or distribution is a very important concept. Frequency is a simple way to describe the number of occurrence of a particular value and its characteristics in a sample. The table summarizes the distribution of values in a sample. The commonly used graph of a frequency distribution are Histogram, Frequency polygon, Frequency curve and Cumulative Frequency Curve or Ogive. They are useful for locating partition values viz. Median, Quartiles, Deciles, Percentiles, etc.
