Summary

With the advancement in the technology the trading in Secondary market has become easier as compared to the traditional methodology. Earlier the investors were supposed to go to the stock exchange for every task they perform. But now SBTS and WAP had made it easier to trade and also to transfer different types of margin money with the help of Internet banking facility. The prospective buyer and seller can trade online from anywhere in the world. The secondary market has facilitated to create market transparent and a better capital market in the country.
