

## **ASSIGNMENT**

1. Write a note on types of savings.
2. Explain the nature of savings disparities and implications of savings disparities among countries of the world.
3. Explain the hyperbolic nature of the relationship between growth of savings and growth of per capita income.
4. Discuss how a barter system impacts savings and investments?
5. Explain how the existence of a large informal sector, high incidence of poverty and less developed financial system influence savings and investment in a nation. What measures should governments adopt in economies with such characteristics?
