

ASSIGNMENT

1.What is legally possible as regards changing the current legislation on the compulsory labeling of minimum durability dates on food?

2.Is there any case law showing that product liability regarding the use of minimum durability dates has resulted in court cases?

3.What information is available in the Netherlands and the EU on the use of product date information for foods?

4.What are the options as regards using technical indicators to show durability?

5.What examples are there of the use of expiry dates in practice, and what can we learn from them as regards food wastage?
