

ASSIGNMENT

1. Discuss lac operan repression and promotion?
2. Explain in detail the central dogma of biology?
3. Discuss attenuation in trp operan?
4. Explain the process of transcriptional regulation in eukaryotes?
5. Discuss the process of positive regulation of lac operan?
6. What do you meant by term operan?
7. Discuss the structure of trp operan?
8. What are the various regulatory proteins of trp operan?
9. Discuss positive control of transcription?
10. Discuss the process of positive regulation of trp operan?
